Annual 64.2009(e) CPNI Certification for 2008

Date filed: March 4, 2009

Name of company(s) covered by this certification: Securetel Network Inc.

Form 499 Filer ID: 826890

Name of signatory: Solomon Loffler

Title of signatory: President

I, Solomon Loffler, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. See 47 C.F.R. § 64.2001 *et seq.*

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken any actions (proceedings instituted or petitions filed by a company at either state commissions, the court system, or at the Commission against data brokers) against data brokers in the past year.

The company has not received any customer complaints in the past year concerning the unauthorized release of CPNI.

Customer Proprietary Network Information Certification
Statement of Compliance Procedures -- 2008
Securetel Network Inc.

Securetel Network Inc. ("Company") operates solely as a debit card provider and as such provides casual calling services to transient users with whom it does not have a subscriber relationship. As such, it does not have any information that relates to the quantity, technical configuration, type, or location of a specific customer's service, nor does Company know its customers' billing names and addresses. Because Company's service is provided outside of any subscribed service relationship, Company does not obtain any customer-specific information in the course of providing service that can be used for marketing purposes.

Company does have call detail information concerning the calls made using Company's debit cards. However, this information is not made available to customers over the telephone, online, or in person.

Company has processes and procedures in place to safeguard the call detail information it obtains in providing service from improper use or disclosure by employees. Employees are trained to protect call detail information from improper use or disclosure and are subject to disciplinary action for violations of these processes and procedures. In addition, Company has processes and procedures in place to discover and protect against attempts by third parties to gain unauthorized access to Company's call detail records.

Company did not have any breach of its call detail records during 2008. Since Company does not have any presubscribed customers, it does not have the ability to notify customers if a breach occurs. Company has processes and procedures in place whereby it can maintain electronic records of any breaches discovered and notify law enforcement.
